## Day of Caring

**Ed Turko, left, Mike Wilda and Melissa Hooper were part of the team of Dominion Power workers who spent two days helping Christian Outreach fix up its new building on Grace Street in Smithfield. The two-day effort was part of Dominion's and the United Ways annual Day of Caring — just a bit earlier this year. The group of up to 45 volunteers removed floor tiles, painted walls, installed studs, pressure washed and did general clean-up of the former health department building. The group also held fundraisers and made pledges to raise the \$3,000 used to buy materials.**
