

participated in this project. Also to the Dominion team for supplying materials to complete the work. Their hard work and contributions made it the huge success that it was.

*Charlie Seitz
COP President*

Surry Power Station volunteered their time and talents to help Christian Outreach Program (COP) renovate our new home at 402 Grace Street as part of the "United Way Day of Caring." In those two days this group of volunteers transformed the building by painting rooms, studding out walls, hanging sheetrock, cleaning floors, installing new floor tiles, power washing the building exterior and completing numerous other work tasks. Many of the rooms are now nearing completion.

COP gives a heartfelt thanks to all the Surry Power Station workers who volunteered and

Thank you, Dominion
